

*Here at the Holiday Inn Express- Sonoma Wine Country we are committed to maintaining a system of operation that is conscious of the impact our business has on the environment. Our “Go Green” program reduces the carbon footprint of our hotel by acknowledging the importance of the economical use of natural resources.*

*Our guests are encouraged to participate by opting into the “Go Green” program at check in. By participating in the program you will be opting for service by request only. This does not mean you will not receive housekeeping services. It is simply an agreement to notify us of your service needs on an “as needed” basis. This helps our hotel reduce water and energy consumption, achieving our solid commitment to the conservation of our planets natural resources.*

*We hope you are as excited about our program as we are. We appreciate each individual’s participation in our effort to be an environmentally conscious business. Your individual commitment to going green allows the possibility of a sustainable environment for the future to be realized. A sincere thank you from all of us at the Holiday Inn Express Sonoma Wine Country!*
